Pick a time on either Tuesday or Wednesday and I can make it.

All terms and conditions (and language) has been agreed to by myself and the Landlord. Marcus has submitted what we believe is an acceptable Lease Amendment to GSA's internal review team (LAG ("Lease Administrative Guidance") and Data Accuracy. LAG could request a change in the LA structure, but I hope not. Marcus submitted it on March 31. We are escalating to get it by tomorrow. Then you pre-val the funding (2 to 3 days) and I sign it (if there are no changes during the LAG review. That's basically it. GSA and all its glorious processes (which does nothing to advance a project)

Tues or Wed just let me know.

Josh-

Did I respond to this?

I am available after 1:00 pm to discuss if you want.

Mark,

Can we discuss tomorrow? Also, we would like to have another discussion about funding and timing next week, Thursday or Friday would be ideal… what is your, and the appropriate members of the GSA team's availability?

All-

It appears that we are about to bring closure to this, however, I am asking if Josh can call CIM to clarify how important the timing is to bring immediate closure.

Either Marcus or myself will reach out to Josh on Monday to cover the specifics.

Josh, I elevated this issue in leasing and two days ago we received word Marcus that this matter was moving forward.

Josh, I am sorry you were unable to make last weeks meeting and meet with Logan concerning the Swing Space lease delay. At the meeting, Logan conveyed to the attending FERC staff the details of GSA's efforts to complete the lease transaction and re-start the swing space design with OTJ. Was this successfully information passed on to you?

Josh - unfortunately nothing definitive. I am bringing Logan Gallagher (GSA Customer Services Manager) to tomorrow's meeting for introductions and explanations.

Josh - my apologies - the swing space lease has not been signed. More pressure is being applied.
